Cleanse, Replenish and Revitalize is the founding principle behind our cutting-edge products. Cleansing helps keep the body healthy and is the missing link to supporting health and successful, long-term weight loss. Replenishing the body with nutrients helps to revitalize the body's systems, leading to vibrant good health. **I have been on the Isagenix system for 30 days. I have more energy & sleep better. I have a flatter tummy and am seeing muscles develop in my legs. It's easy, tastes great and affordable. Cynthia**
